Old Times in the Colonies

Write a few sentences about how to use a spinning wheel inside this minibook:

1. First, the spindle was attached horizontally to a large wheel with a circular band.
2. Next, cotton fibres were wound on the distaff or stick.
3. With the left hand, a spinner would feed the short cotton fibres from the distaff or stick.
4. The right hand would turn the wheel.
5. As the fibres were being pulled onto the spindle, they would twist together, making a thread.
6. This thread would be wound into a skein, or coil, of yarn.
7. The yarn, once long enough, would be removed from the spindle.
8. The skein of yarn was then used to weave into cloth.

Describe the first Thanksgiving held in Plymouth.

Describe life on the frontier.
