Folded Paper Boxes

You will need:

- square paper or card stock 28cm X 28cm
- scissors
- glue/ cellotape/ stapler

Fold your paper:

1. Fold the square horizontally in half & reopen.
2. Fold the square vertically in half & reopen.
3. Fold the bottom left corner and the top right corner to the center of the square, forming opposite triangles.

![Diagram of step 3]

4. Fold both the newly made folds and fold to the middle & reopen this fold.

![Diagram of step 4]

5. Cut along all 4 of the new fold lines, from the paper edge up to the edges of the triangles.

![Diagram of step 5]

6. Take the top left corner and the bottom right corner and fold the corners into the center.

![Diagram of step 6]

7. Fold again in half, so that the last fold is at the end of the cut lines.

8. Fold all 4 pointed strips to form folds in line with the 2 middle double folded pieces.

Assemble your paper box:

- Fold the pointed flaps around the outside of the 2 center folds.
- Insert the corners of the center folded piece into the diagonal fold of the flap.
- Tape/glue or staple the outside overlapping flaps to the box.
